**Education Futures:
Fostering Learning
Societies**

**DAY
1**

WELCOME TO WISE@PARIS

START YOUR JOURNEY!

Over the course of two days, participants will join a diverse group of thought leaders, practitioners and innovators to discuss and collaborate on actionable and innovative solutions in education. WISE@Paris will be a gathering for rethinking and shaping the learning societies of today and tomorrow.

Every day, individuals and organizations throughout the world and across sectors are tirelessly working to create new solutions to prepare the next generations for better futures as professionals and citizens.

WISE@Paris will allow participants to discover bold solutions, explore creative models and interact with thinkers, shapers and creators in education coming from different parts of the globe. The new insights and connections that participants will gain during WISE@Paris will be a step in the journey towards building a better future for education and learning for all.

Join the movement and design your own learning journey!

DAY 1 - EXPLORE CHALLENGES AND SOLUTIONS IN EDUCATION THROUGHOUT PARIS WITH PARTNER INSTITUTIONS

Begin your journey at one or more of four prestigious partners across the city of Paris!

You may choose to start your learning expedition at the Center of Interdisciplinary Research (CRI) in order to delve into the cutting-edge research, policies and innovations necessary to rethink and reform early childhood education and learning.

Or, you may want to stop by UNESCO headquarters to reflect on how to empower teachers in an age of rapid technological disruption as well as the power of global citizenship education to foster inclusive and peaceful societies.

If you are interested to learn about the necessary competencies and skills needed to succeed in economies witnessing deep transformations, join the sessions organized by Pixis and Ashoka at Station F, the biggest startup incubator in the world. There, you will discover individuals and initiatives working to prepare society for the future of work.

Finally, you may want to pass by Sciences Po, France's leading University in the social sciences, to discuss the role of education in upholding universal values.

So, where will you begin your journey on Day one?

WISE@Paris is organized under the High Patronage
of Mr Emmanuel MACRON, President of the French Republic

#WISEParis #FutureEd

CRI - INTERDISCIPLINARY RESEARCH CENTRE (IRC)
8-8bis rue Charles V, 75004 Paris

CRI was founded by François Taddei and Ariel Lindner in 2005 to create a student/researcher centered open environment in which they can collaborate together to build a world where lifelong learning is at the heart of our society. To help everyone take care of oneself, others and the planet, CRI is co-constructing and sharing new ways of learning, teaching and mobilizing collective intelligence in the fields of life, learning and digital sciences. Sitting at the crossroads of research and education, CRI advocates for innovative pedagogy putting the student at the heart of their own learning experience through projects, research and societal challenges.

UNESCO
125 avenue de Suffren, 75007 Paris

UNESCO works to create the conditions for dialogue among civilizations, cultures and people, based upon respect for commonly shared values. UNESCO's mission is to contribute to the building of peace, the eradication of poverty, sustainable development and intercultural dialogue through education, the sciences, culture, communication and information. UNESCO's overarching objectives includes attaining quality education for all and lifelong learning, mobilizing science knowledge and policy for sustainable development, addressing emerging social and ethical challenges, fostering cultural diversity, intercultural dialogue and a culture of peace, and building inclusive knowledge societies through information and communication.

5 Parvis Alan Turing, 75013 Paris

PIXIS

Pixis is a web platform that helps young students in their college and professional guidance. Its mission is to guarantee a quality information on degrees and career opportunities for all, through an immersive and personalized guidance experience. Pixis aims to make the youth protagonists in defining their life path, raise awareness on the challenges of the 21st century and have the possibility to look for purpose and engage in meaningful causes.

ASHOKA

Ashoka is the world's largest network of social entrepreneurs. It pioneered the field 35 years ago and has supported more than 3,500 Ashoka Fellows across the globe, guiding them to grow unexpected ideas into transformative social progress.

SCIENCES PO
27 rue Saint-Guillaume, 75007 Paris

Sciences Po is an international research university, both selective and open into the world, ranking among the finest institutions in the fields of humanities and social sciences. Sciences Po has cultivated the minds of leading government officials, diplomats, and key international stakeholders for over a century. Today, 48% of the community are international students. Consolidating this tradition of excellence, the Paris School of International Affairs (PSIA) provides graduate students with groundbreaking insights into global affairs. Attracting the best and brightest students worldwide, PSIA has a population of 1,500 students representing over 100 countries. With 70% of courses taught in English, students may take a full course of study in English, and become multilingual while in Paris. In the 2018 QS World University Rankings by subject, Sciences Po ranks 4th internationally in Politics & International Studies.

PROGRAM AT CRI

09:00 - 10:30	MINISTERIAL PANEL Navigating the Politics of Education – Adapting Education Systems to the Age of Information & Technology Auditorium							
10:30 - 11:00	BREAK							
11:00 - 12:30	KEYNOTE SPEECHES Disruptive & Highly Scalable Innovations to Advance Education in Africa & the Middle East Auditorium							
12:30 - 13:30	LUNCH BREAK							
13:30 - 14:30	KEYNOTE SPEECHES Citizen Science of Learning: all learners, all researchers, all discoverers by Francois Taddei & Jacob Sherson Auditorium							
14:40 - 17:00	Workshop 1 LEARNING BY COLLABORATING How to connect ideas, innovators, and resources in education to have more impact?	Workshop 2 LEARNING THROUGH DIGITAL How can the next generation of digital tools best contribute to education?	Workshop 3 LEARNING BY OPENING UP DESIGN AND SCIENCE How can collaborative research help the understanding of babies and toddlers development?	Workshop 4 LEARNING THROUGH ENGAGEMENT Learning Planet: How to engage all learners to tackle SDGs?	Workshop 5 LEARNING BY DOING How can #frugalinnovation serve education and pedagogy?	Workshop 6 LEARNING BY SHARING KNOW-HOW How to kickstart your own MOOC - Massive Online Open Course?	Workshop 7 LEARNING THROUGH QUESTIONING How can we imagine different ways of empowering educators?	
17:00 - 18:00	WORKSHOPS PLENARY RESTITUTION Auditorium							
18:00 - 18:30	CLOSING REMARKS Auditorium							

NAVIGATING THE POLITICS OF EDUCATION - ADAPTING EDUCATION SYSTEMS TO THE AGE OF INFORMATION AND TECHNOLOGY

In this session, we will explore with Ministers and former Ministers the challenges related to navigating the politics of education, notably discussing the role of technology, the role of public buy-in in education reform, and the role of knowledge sharing, information, and collaboration at the international and national levels.

DISRUPTIVE AND HIGHLY SCALABLE INNOVATIONS TO ADVANCE EDUCATION IN AFRICA AND THE MIDDLE EAST

It is predicted that 3 billion out of the 4 billion additional people that will populate the planet will be born in Africa. Although the continent is seeing progress, African nations need to be the fertile ground for innovations that can transform the prospects of their youth in particular. In this session, innovators and entrepreneurs will pitch their ambitious and scalable ideas that could have the potential to significantly advance education in the Africa and the Middle East.

WORKSHOP 1: LEARNING BY COLLABORATING

The scale and complexity of transforming education systems can be overwhelming. However, by improving the way we learn from each other, and by collaborating on system-changing projects, the challenge can be overcome. In this session, we will explore new ways of leading collaborative ecosystemic change to empower every young person to live for the greater good.

WORKSHOP 2: LEARNING THROUGH DIGITAL

Discover iLearn, CRI's project to map learner trajectories. Using artificial intelligence and crowdsourcing, we build learner's profiles to present them learning resources specifically targeted to them. We match learners and mentors. Join the core team to help test and design this tool and co-construct its business model and growth strategy.

WORKSHOP 3: LEARNING BY OPENING UP DESIGN AND SCIENCE

Come and participate in this collaborative session where we will discuss early childhood as regards to learning communities, collaborative research, and digital tools. Don't forget to interact with our guest designers who develop innovative projects leveraging digital tools for young children education.

WORKSHOP 4: LEARNING THROUGH ENGAGEMENT

Brainstorm collectively on how to scale up SDG-based education. Unleash creativity by inviting all the students worldwide to learn about our common problems and design solutions.

WORKSHOP 5: LEARNING BY DOING

Enter the FabLab philosophy with its machines, low-tech resources and its interdisciplinary experts with a hands-on workshop. You will take part in prototyping for research and learning, gathering electronics and digital fabrication through the prism of use and functionalities.

WORKSHOP 6: LEARNING BY SHARING KNOW-HOW

Join CRI's MOOC factory's team, co-author of 29 MOOCs serving about 8,000 trainees since 2014. Come discuss Massive Open Online Courses stakes, opportunities and limitations. Dare to switch to workshop mode, taking the role of an education expert to kick start custom and well-conceived MOOC proposals for your organization.

WORKSHOP 7: LEARNING THROUGH QUESTIONING

Meet and discuss with the teachers and researchers who are creating tomorrow's school in France and designing the education through research model. This model has already benefited tens of thousands of students, teachers, and researchers and was developed using participatory research methods.

14:00 - 14:15	WELCOME REMARKS Elyas Felfoul
14:15 - 14:30	KEYNOTE Sophie Viger
14:30 - 15:45	A FUTURE OF WORK FOR ALL Keynote: Sheikha Alanoud Hamad Al Thani Moderator: David Fajolles Céline Calvez Borna Scognamiglio Yalda Aoukar Dorothée Roch
15:45 - 16:00	BREAK
16:00 - 16:45	ASHOKA TALKS: Social Entrepreneurs Shaping the Future of Work Laurence Grandcolas Emilie Schmitt Samuel Grzybowski Matthieu Dardaillon Olivier Bory
16:45 - 17:00	BREAK
17:00 - 17:15	JOBS IN 2030: Imagined by the Youth Students from the University of Paris Descartes
17:15 - 17:55	PREPARING FOR WORK: A lifelong Journey Moderator: David Fajolles Najat Vallaud Belkacem Pierre Dubuc
17:55 - 18:00	CLOSING REMARKS Touhami Abi

A FUTURE OF WORK FOR ALL

How does the future of work look like? What skills will be relevant 20 years from now? What role will the government play to help us prepare for the future of work? How can we make sure no one is left behind while preparing for the future of work? This panel will explore the answers to questions we all have in mind about the future of work and how to prepare for it.

ASHOKA TALKS: SOCIAL ENTREPRENEURS SHAPING THE FUTURE OF WORK

Get inspired by the journey of five social entrepreneurs who are shaping the future of work by bringing back a sense of meaning within companies, allowing individuals to reveal their talents, transform unemployment into an opportunity and leverage diversity as an asset. They will share with you their vision of an economy that employs everyone's potential to serve social change.

JOBS IN 2030: IMAGINED BY THE YOUTH

A journey in the future of jobs as imagined by the youth. Students from the University Paris Descartes will give you a taste of how they envision the jobs of 2030 and beyond.

PREPARING FOR WORK: A LIFELONG JOURNEY

A journey of lifelong learning awaits us to accompany the changes that are taking place in our economies. During this session, we will delve into what a lifelong journey of learning will require from individuals and society and how we can embark smoothly on that journey.

14:00 - 15:30	<p>Opening remarks: Stefania Giannini</p> <p>Empowering Teachers in the 21st Century Context</p> <p>Moderator: Dave Stanfield</p> <p>Keynote: Ali Zainal</p> <p>Edem Adubra Shyamal Majumdar Heidi Harju-Luukkainen Murugesh Nagaraju</p>
15:30 - 16:00	BREAK
16:00 - 17:30	<p>Global Citizenship Education for Peaceful and Inclusive Societies</p> <p>Welcoming remarks: Dov Lynch</p> <p>Moderator: Marco Moreira De Sa Assuncao Teixeira</p> <p>Erlinda Hándal Vega Fethi Mansouri Onyinye Ough Aya Chebbi</p> <p>Wrap-up: Elodie Beth-Seo</p>
17:30 - 18:00	BREAK
18:00 - 19:00	<p>Film Screening: Cultivating Great Teachers for Thriving Schools</p> <p>Moderator: Andrew Jack</p> <p>Stefania Giannini Armelle Arrou Barthélémy Fougea</p>

EMPOWERING TEACHERS IN THE 21st CENTURY CONTEXT

The role of teachers is vital in improving student outcomes and powerful forces for equity, access and quality in education. Teachers must adapt to a constantly changing world. Pedagogy and programs must be rethought to prepare the next generations to fulfill themselves in their working lives and as citizens. As demonstrated in researches, motivated and highly dedicated teachers are pivotal to improve the overall quality of the education system.

This panel will serve to discuss how effectively we can accompany teachers so that they can thrive in their role and positively impact our children in various contexts – from the develop world to emerging countries and conflict zones. How do we ensure impactful teachers, and what is the role of external stakeholders in supporting these teachers?

GLOBAL CITIZENSHIP EDUCATION FOR PEACEFUL AND INCLUSIVE SOCIETIES

The session, delivered in partnership with UNODC's Education for Justice (E4J) initiative, aims to share lessons learned from educational efforts to foster engaged and ethically responsible citizens through Global Citizenship Education for the rule of law. In addition, the session hopes to raise awareness of the importance of investing in holistic approaches to education that equip learners (of all ages) with the knowledge, skills, values, attitudes and behaviors they need to live together peacefully in diversity and become socially responsible global citizens with a sound moral and ethical compass who are prepared to tackle the world's most serious crime problems.

FILM SCREENING: CULTIVATING GREAT TEACHERS FOR THRIVING SCHOOLS

As highlighted in « Les Profs de L'impossible », teachers have a great responsibility: they are the shapers who prepare our kids to tackle the future and its pertaining challenges. But at the same time, in a lot of countries they face barriers, whether it is access to their classrooms, on-going conflicts in their countries, lack of funding, lack of training or a lack of support and even respect from the parents. We might therefore wonder how to successfully empower teachers in order for them to fulfill their mission? What would be new and innovative ways to help them? The screening will be followed by a discussion on ways to support teachers in contexts where access to education is hindered by climate, conflict or inequality.

17:00 - 18:45	<p>The Role of Education in Upholding Universal Values</p> <p>Moderator: Vanessa Scherrer</p> <p>Matthew Opoku Prempeh Stavros Yiannouka Vivian Onano Yann Algan Oakleigh Welply</p>
---------------	---

This panel will focus on how education plays a key role in fostering global citizenship as a solution to global issues, such as the rise of divisive socio-politics, poverty and climate change. By exploring how education systems influence local and global community building, this session will highlight efforts taken and challenges faced in upholding universal ethos of unity, dignity and diversity.

AGILE LEADERS OF LEARNING INNOVATION NETWORK (ALL-IN) MEETING

(PRIVATE SESSION)

The Agile Leaders of Learning Innovation Network (ALL-IN) program aims to gather school leadership organization, school leader associations and other key players, who are creating sustainable programs in support of their school leaders.

Following successful workshops in Accra (May 2018) and New York (September 2018) the network will use the gathering in Paris to discuss impact evaluation and scaling up of leadership programs, followed by the methodology for a research project into global best practices of school leadership. The findings of this project will be presented at the World Innovation Summit for Education in November 2019.

DAY
2

CONTINUE YOUR JOURNEY AT PALAIS DE TOKYO!

IMAGINE EDUCATION FUTURES THROUGH PARTICIPATORY AND CREATIVE SESSIONS

Get inspired by the creative environment of the iconic Palais de Tokyo to imagine different education futures!

WISE@Paris – Day two is the culmination of the collaborations, reflections and exchanges of those fostering learning societies. It is the rendez-vous for learners and education innovators from different sectors to embark on a personalized journey towards the future of education.

Join us on this journey to rethink K-12 education; empower teachers and school leaders so they can thrive in their roles; decrypt the future of work and the role of education in preparing individuals; and cultivate global citizenship. You can explore these themes during WISE@Paris – day two through an array of interactive and collaborative sessions. You will leave the event energized and inspired to take actions to build the future of education!

Browse through the program to figure out your next steps.
